

**PALANNTECH INDIA  
PRIVATE LIMITED**

# Information Technology

**Providing Information Technology & Support System**

## **ABOUT US:-**

**CORPORATE TRAINING**  
TRAINING YOUR COMPANY'S BEST

Palann technologies is one of those rare companies which is not into this business just to make money, but to carve out its name in bold for the quality and quantity of IT Training service rendered. At the end of the day, the feedback obtained in a batch is more important than the revenue it generated. It accelerates learning by focusing not just on building simulation, but on crafting the total training package. We use scientifically sound methods to link the right training experiences to well defined objectives. We then use measure to assess trainees and the effectiveness of our training systems.

Our corporate trainers are subject matter experts with relevant experience and who are excellent instructors

## **OUR VISION:-**

***"To be a leader and role model in providing quality training services in India and the region"***

Palann technologies offers solutions which bring visible, immediate results, by providing our clients with the expertise and skills they need to make them valuable assets to their companies. Training your staff results not only in enhanced self-esteem, but in less turnover, less reliance on outside consultants and ultimately, substantial savings to your company.

An investment in quality education provides an asset to your company; a capable, confident employee. Our instructors and course developers are a group of experienced, enthusiastic Professionals. They all have many years of training and work experience in the corporate world.

## **OUR SERVICES:-**

### **ON-SITE TRAINING**

It is intense, cost-effective, and your company reaps instant benefits from improved job performance.

### **PUBLIC CLASS TRAINING**

Palann Technologies offers on-time, on-demand public classes on various technical platforms. All of our Instructors have real experience of the subjects they teach and the ability to present the class in a structured presentation geared towards maximizing the value of the classes you attend without compromise

### **BLENDED LEARNING PROGRAMS**

We can deliver blended training programs successfully integrating the best features of traditional Instructor Led Training with modern web based technology and techniques.

### **MENTORING AND CERTIFICATION**

All of our programs can be integrated with specific project work enabling your delegates to demonstrate their new competencies and become productive in a short time. Vendor specific certification services can be provided.

### **GRADUATE DEVELOPMENT PROGRAMS**

These highly-tailored programs are based on the result of solid research into graduate development requirements. Comprising a comprehensive range of products and services, the objective of these programs is to fast-track graduates to a competency level at which they can take on key roles within an organization. Our Graduate Development programs challenge, stretch and motivate graduates as they develop their own personal development plan whilst preparing to meet organizational requirements and transferring their new skills and knowledge to the workplace.

## TRAINING NEEDS ANALYSIS

Training needs analysis is an essential first step in any development program in order to achieve the greatest improvement in performance and best value for your investment in training and staff development. We can help you identify and assess your competencies in terms of personal effectiveness, managing communications, managing people, effective directorship and corporate culture and IT skills. Thus we can develop the most suitable approach for a particular individual or the whole organization

## TRAINING BENEFITS:-

### ONE-STOP SHOP

With our vast international resources in almost every technology, we can fulfill ALL our client's needs in no time.

### QUALITY

All trainers are highly skilled in their areas of expertise and have a wealth of personal knowledge and experience. their own personal development plan whilst preparing to meet organizational requirements and transferring their new skills and knowledge to the workplace.

## TRAINING NEEDS ANALYSIS

Training needs analysis is an essential first step in any development program in order to achieve the greatest improvement in performance and best value for your investment in training and staff development. We can help you identify and assess your competencies in terms of personal effectiveness, managing communications, managing people, effective directorship and corporate culture and IT skills. Thus we can develop the most suitable approach for a particular individual or the whole organization

### COST EFFECTIVE

Since the training takes place at your premises, fees are charged per day rather than per delegate, therefore staff can be trained at a very low cost per person enabling you to maximize your training budget. On our premises fees are charged per day on per delegate where all the arrangement will be take care by us.

### FLEXIBLE TRAINING

Our training offers the ultimate flexible training solution. All the modules from our training program will be in standard format but if requires something can be customized accordingly.

### EFFECTIVE IMPACT

By learning in familiar surroundings and having colleagues alongside throughout the training, the impact throughout the organization is immediate. Sensitive company information can be shared and used as real life examples during the training in complete confidence to enable you to relate your learning directly back to your working environment.

### WORK ETHICS

We believe in strong work ethics and concurrent growth of clients, partners, vendors and employees.

## Courses Offered By Us

### PROGRAMMING LANGUAGE COURSES

- C Programming
- C Programming Deep Dive
- C++
- C++ Deep Dive
- Core Java
- Python
- Fast Track To Scala
- Advanced Scala
- MS ASP.NET MVC 4.0
- MS ASP.NET MVC 5.0
- Perl
- JavaScript Deep Dive
- JavaScript & Ajax
- Python Deep Dive
- C#
- Design Patterns, Principles & Best Practices For C++
- Perl Deep Dive
- PHP
- PHP Deep Dive
- Ruby On Rails
- Ruby Programming
- Shell
- Shell Scripting Deep Dive
- Java Deep Dive
- ActionScript

### JAVA COURSES

- Restful Webservices
- Java 8 New Features
- Core Java
- Jenkins Engineer Certification
- Java Design Patterns & UML
- Java Performance Tuning
- Ant
- Architectures For Enterprise Java Applications
- Building Web And Ajax Applications With JavaServer Faces 2.1
- Building Web Applications With JSF, Spring Web Flow & Spring Faces
- Camel
- Spring And Hibernate Bootcamp
- Design Patterns, Principles & Best Practices For Java/JEE Applications
- Core Spring 4.2
- Enterprise Spring
- EJB-3

- Introduction To JSF Development With ICEfaces
- Introduction To RichFaces
- Java Deep Dive
- Java Development For Secure Systems
- JBoss
- JSF (JavaServer Faces)
- JSF (JavaServer Faces) Deep Dive
- JSP & Servlets
- Maven
- OOAD & UML For Java/JEE Applications
- OSGi
- Securing Java Web Applications
- Spring Web
- SOA/SOAP
- Struts
- Test Driven Development For Java/JEE Applications
- WebLogic
- WebSphere
- Web Services
- RabbitMQ
- Administering Apache Tomcat

### TESTING COURSES

- Cloud Testing
- Selenium WebDriver
- QuickTest Professional (ALM)
- Java For Selenium Webdriver
- JUnit
- LoadRunner
- SilkTest
- WinRunner

### WEB TECHNOLOGIES

- Angular.JS
- Angular.JS 2.0
- Node.JS
- HTML5 & CSS3
- JQuery
- Dojo
- JavaScript Deep Dive
- JavaScript & Ajax
- Selenium WebDriver
- Django
- ActionScript
- Adobe Flex
- Backbone.JS
- Building RIA With Silverlight
- CakePHP

- CodeIgniter
- CoffeeScript
- CSS3
- CSS Deep Dive
- Cucumber
- D3.JS
- Ember.JS
- Ext JS
- GWT
- HTML5
- HTML5 Canvas
- Jasmine
- JavaScript
- JQuery UI
- Kendo UI
- Knockout.JS
- PHP
- PHP Deep Dive
- React.Js
- Vaadin
- XHTML
- XML
- Zend
- Groovy And Grails
- Groovy, Grails & AngularJS

#### **MOBILE TECHNOLOGY COURSES**

- Android
- Apple IOS (iPhone & iPad)
- PhoneGap
- OpenGL
- Android Deep Dive
- Cocoa Programming
- IOS Application Development With Swift
- JQuery Mobile
- Mobile Application Testing
- Mobile UI Design Essentials & UI Design Patterns
- Objective C
- OpenGL ES

#### **BIG DATA ANALYTICS COURSES**

- Apache Hadoop & Big Data
- Apache Spark & Scala
- Hadoop Administration
- Apache Spark
- Data Science & Big Data Analytics For Business Transformation
- Big Data Analytics On Hadoop
- Data Center UCS
- Data Analyst
- HBase

- Hbase Impala Flume
- Hive

#### **CLOUD COMPUTING COURSES**

- Amazon Web Services
- Openstack
- Microsoft Azure Design, Config & Implementation
- Chef
- Git
- Google App Engine
- Puppet
- Cloud And Agile Testing With Quality Management
- Cloud Testing
- Cassandra Crunch
- AWS Architecting
- AWS Operations
- AWS Security
- Cloud And IT As A Service For Business Transformation
- Cloud Computing Infrastructure
- Cloud Infrastructure And Services (CIS)
- Cloud Tiering Appliance
- Cloud Security
- AWS Developer Certification
- AWS DevOps Certification
- AWS SysOps Certification
- IT-As-A-Service Planning And Design
- KVM
- Mahout
- Developing Microsoft Azure Solutions
- MongoDB Admin
- Neo4j
- Pig
- Salesforce For Administrator
- Salesforce For Developer
- Salesforce For Managers
- Storm
- VCloud Automation Center: Install, Configure, Manage (VMware)
- VCloud Director: Install, Configure, Manage (VMware)

#### **DATA-SCIENCE COURSES**

- Data Science & Machine Learning
- Data Science & Big Data Analytics
- Data Science & Big Data Analytics For Business Transformation
- Business Analytics With R

## MICROSOFT COURSES

- MS ASP.NET MVC 5.0
- MS ASP.NET MVC 4.0
- Microsoft Azure Design, Config & Implementation
- SCCM (System Center Configuration Manager) 2012
- SCOM (System Center Operations Manager) 2012
- RestFul WebServices Using ASP.NET
- Windows Presentation Foundation (WPF)
- ASP.NET 4
- Developing Microsoft Azure Solutions
- Design Patterns, Principles & Best Practices For .Net
- Silverlight
- SQL Server Database Administration
- SQL Server For Developer
- Test Driven Development For .NET Applications
- Windows Communication Foundation (WCF)
- Windows Workflow Foundation (WWF)
- Microsoft Exchange Server
- Microsoft Hyper-V

## DATABASE COURSES

- Hadoop Administration
- MongoDBs
- Cassandra Crunch
- Oracle SQL Tuning
- Redis
- Big Data Analytics On Hadoop
- MongoDB Admin
- Big Data Analysis Using Hadoop

## VMWARE CERTIFIED COURSES

- EMC Storage Integration With VMware And Applications
- Horizon View: Install, Configure, Manage
- VCenter Configuration Manager For Virtual Infrastructure And OS Management
- VCenter Operations Manager: Analyze And Predict
- VCenter Orchestrator: Develop Workflows
- VCenter Site Recovery Manager: Install, Configure, Manage
- VCloud Automation Center: Install, Configure, Manage
- VCloud Director: Install, Configure, Manage
- VSphere: Design Workshop
- VSphere: Fast Track
- VMware VSphere: Install, Configure, Manage

- VSphere: Optimize And Scale
- VSphere: Troubleshooting Workshop

## VIRTUALIZATION COURSES

- Windows PowerShell
- Citrix Presentation Server
- Citrix XenApp
- Citrix XenDesktop
- Citrix XenServer
- Horizon View: Install, Configure, Manage
- KVM
- Microsoft Exchange Server
- Microsoft Hyper-V
- QEM
- SCCM (System Center Configuration Manager) 2012
- SCDPM (System Center Data Protection Manager) 2012
- SCOM (System Center Operations Manager) 2012
- SCSM (System Center Service Manager) 2012
- SCVMM (System Center Virtual Machine Manager) 2012
- System Center Orchestrator 2012

## STORAGE COURSES

- Avamar Mgmt
- VNX Storage Mgmt
- VMAX Config
- VMAX3 Config Mgmt
- Isilon Admin & Mgmt
- Advanced SAN Impl
- Host To Storage SAN Impl
- ViPR SRM - Storage Admin
- ViPR SRM Impl & Maint
- XtremIO Mgmt
- Atmos Implementation And Management
- EMC Storage Integration With VMware And Applications
- ViPR Management
- SAN Management
- Symmetrix Mainframe Business Continuity Management

## HORTONWORKS CERTIFIED COURSES

- HDP Developer: Java
- HDP Developer: Apache Pig And Hive
- HDP Developer: Custom Apache YARN Applications
- HDP Operations: HDP Administration 1
- HDP Analyst: Data Science

- HDP Operations: HDP Administration 2
- HDP Analyst: Apache HBase Essentials
- HDP Developer: Windows
- HDP Developer: Apache Storm And Trident Fundamentals
- HDP Ops: Migrating To HDP
- HDP Ops: Apache HBase Advanced Mgmt
- HDP Overview: Apache Hadoop Essentials
- HDP Developer: Enterprise Apache Spark I

## AGILE COURSES

- Agile Software Development Using Scrum
- Agile Software Development Methodologies
- Agile Testing And Quality Management
- Agile Planning And Estimation
- Applying Scrum To Agile Project Management
- Scrum
- Scrum Product Owner
